

Die Nationale Akkreditierungsstelle / *The National Accreditation Body*:

AKKREDITIERUNG AUSTRIA

bestätigt die Akkreditierung der Rechtsperson / *confirms the accreditation of*

HygCen Austria GmbH

Werksgelände 28, A-5500 Bischofshofen

Identifikationsnummer / *ID-number*: **0196**

als / *as* **Prüflaboratorium / Testing Laboratory**

gemäß / *according to* **EN ISO/IEC 17025:2017**

Datum der Erstakkreditierung / *Initial date of accreditation*: **27.12.2001**

Standort/Organisationseinheit / *site/unit*:

HygCen Austria GmbH, Werksgelände 28, A-5500 Bischofshofen

Informationen zum Akkreditierungsumfang und zu Akkreditierung Austria / *Information about the accreditation scope and Akkreditierung Austria* <http://www.bmdw.gv.at/akkreditierung>

Die Akkreditierung wurde mittels Bescheid erteilt und damit bestätigt, dass die Konformitätsbewertungsstelle die angeführten Anforderungen erfüllt. Diese Bestätigung darf nur unverändert weiterverbreitet werden. / *The accreditation was granted by a decree which confirms, that the Conformity Assessment Body fulfills the given requirements. This confirmation of accreditation may not be reproduced other than in full.*

Dipl.-Ing. Dr. Norman Brunner
Wien, am 16. Dezember 2020

Testing Laboratory

legal entity **HygCen Austria GmbH**
Werksgelände 28, 5500 Bischofshofen
web www.hygcen.at

ident No **0196**
site **HygCen Austria GmbH**
Werksgelände 28, 5500 Bischofshofen

initial date of accreditation **2001-12-27**
level 3 accreditation standard **EN ISO/IEC 17025:2017**
according to EA-1/06

Accreditation Austria (AA) is a signatory of the Multilateral Agreement (MLA) of the European co-operation for Accreditation (EA) and of the Mutual Recognition Agreement (MRA) of the International Laboratory Accreditation Cooperation (ILAC) for the accreditation of this accreditation program.

According to § 7 AkkG 2012, the harmonized Level 3 accreditation standard on which the accreditation is based and as well as the applicable instruction documents/guides or obligatory declared normative documents from EA - European co-operation for Accreditation, the ILAC - International Laboratory Accreditation Cooperation and the Accreditation Austria in the valid version must be observed and complied with.

Accreditation is additionally granted in accordance with the following

other requirements EA-3/01:2019
ILAC-P9:2014
ILAC-P10:2020

Scope of Accreditation of Testing Laboratory (EN ISO/IEC 17025:2017)
HygCen Austria GmbH / (ID No 0196)

valid from: 2020-12-04

document number (issue)	¹⁾	title of the standard or SOP	²⁾	carried out tests / ³⁾ types of tests / techniques / methods /	materials / products	components / parameters / characteristics	remarks
16-009 (2014-05)	S	Testing of the cleaning efficacy of washer disinfectors for thermostable & thermolabile medical devices in accordance with the guideline of ÖGSV respectively DGKH, DGSV and AKI		Photometry	thermolabile medical devices	Protein residues after cleaning	The cleaning performance is checked with the aid of test specimens which are soiled; the evaluation according to the modified OPA-method
16-010 (2014-11)	S	Testing of the cleaning efficacy of washer disinfectors for thermolabile endoscopes in accordance with the guideline of ÖGSV		Photometry	thermolabile endoscopes	Residual proteins after cleaning	The cleaning performance is checked with the help of endoscopic Dummies; the evaluation is done optically
17-008 (2012-09)	S	Quantitative determination of free NH ₂ groups of blood-proteins by the modified OPA method		Photometry	aqueous liquids	NH ₂ -Gruppen (Proteins)	The determination of the residual proteins of soiling by the modified OPA-method is carried out photometrically and serves to demonstrate the cleaning performance.
ASTM F 1670/F 1670Ma (2017-01)	N	Standard Test Method for Resistance of Materials Used in Protective Clothing to Penetration by Synthetic Blood		Penetration procedure with synthetic blood	Fabrics of Protective Clothing	Resistance to penetration	
ASTM F 1671/F 1671M (2013-01)	N	Standard Test Method for Resistance of Materials Used in Protective Clothing to Penetration by Blood-Borne Pathogens Using Phi-X174 Bacteriophage Penetration as a Test System		Phi-X174-Bacteriophage-Intrusion procedure	Fabrics for Protective Clothing	Pathogenic germs	
DIN 38409-9 (1980-07)	N	German standard methods for the examination of water, waste water and sludge; general measures of effects and substances (group H), determination of the settleable matter by volume in water and waste water (H9)		Volumetric process	Drinking water, ground and surface water, process water, waste water	removable substances

1) Types of tests: standard (N) or SOP (S); Any amendments of standards apply as with accredited, provided that there is no new conformity assessment procedures are defined. Austrian laws and regulations as well as EU regulations are accredited in the applicable version, unless otherwise indicated.

2) Conformity assessment procedures can - if selected - also be carried out on site.

3) Techniques / methods / equipment are mentioned if applicable and only if there is an influence on the measurement result.
